

BUSINESS BOOMING.

Reports From the Interior Counties Indicate an Active Summer.

LARGE SAW MILL PLANTS

Of a Capacity of Seventy-five Thousand Feet of Lumber Per Day Being Built on the West Virginia Central. State Bursting With Prosperity.

Special Dispatch to the Intelligencer.

KEYSER, W. Va., April 8.—One of the finest mills along the line of the West Virginia Central Railway has just been put in operation by the Coker Lumber Company, of which Rumbarger Bros., of Philadelphia and Elkins, are the principal members. R. R. Rumbarger, of Elkins, will manage the plant, which will have a capacity of about 75,000 feet per day. The company owns a tract of timber land containing 15,000 acres, through which they will build a lumber railroad. One hundred and fifty men will be given employment.

Floyd Knight and L. C. Purgett, of Knight & Purgett, returned to-day, from Chicago, where they purchased an improved dry press brick machine and other modern brick-making machinery for their plant in McCoole, just across the Potomac from Keyser. The present capacity of the plant will be largely increased.

F. M. Willison, who was engaged in the dairy business at Elkins for four years, purchased the Jackson farm, three miles from Keyser, and will tomorrow start a first-class dairy. Keyser people have had trouble to secure a sufficient supply of milk and this industry will be greatly appreciated.

Rogers Bros., who for several years were extensive merchants at Burlington, have closed out their business and will go to Philadelphia to enter into business.

The miners in the Elk Garden mines of the Davis Coal & Coke Company, have been granted an additional advance of ten cents per car for mining coal.

The machinery of the Shenandoah pants factory at Martinsburg will shortly be run by electricity; wires are now being strung in their buildings and as soon as connections can be made the gas engine which has heretofore furnished the power will be done away with.

J. S. Butler has purchased a large tract of oak timber at Higgins-Montrose, Randolph County, and has a sawmill in operation, cutting export lumber.

The miners at Barlow, who struck some days ago for an increase of about six cents per ton for machine mining, went back to work to-day, pending an adjustment of the differences. They went to work at the old rate.

Eleven of the twenty girls employed at the postal card factory at Luke quit work, but just what precipitated the matter has not been announced. For some time, it is said, there has been dissatisfaction among the girls on account of time lost. They want pay for full time.

Work has been commenced on the \$30,000 water works system at Elkins. A force of men are digging the reservoir, and pipe is being distributed. The work will be pushed.

Mayor J. C. Irons, of Elkins, has issued a proclamation to the effect that the curfew law will be strictly enforced in that town.

A company of sixty Italians has been taken to Burnsville, Barbour County, to work in the shaft that is being sunk there.

A telephone line has been built between Franklin, Pendleton, Company, W. Va., and Monterey, Highland County, Va.

At its session which just closed, the Mineral county court granted saloon license to twelve saloon-keepers—three in Keyser and nine in Piedmont.

Twenty-three saloon licenses were granted by the county court of Randolph county at its recent session.

At Delbin, on the line of the West Virginia Central, the Whitmer-Lane Lumber Company is just contemplating one of the finest sawmills in West Virginia. It is to be lighted by electricity. Several thousand logs are laying in their boom ready for sawing.

James Edwin Chipley, editor of the Moorefield Examiner, and Miss Elizabeth Seymour, of Moorefield, were married in the Presbyterian church, at

Moorefield, last Wednesday. They are two of Hardy county's most prominent young people.

At a meeting of the stockholders of the Patterson's Creek & Potomac Railroad Company, held in the Baltimore & Ohio office here Thursday, the company was formally organized, directors being elected as follows: John K. Cowen, J. D. McCubbin, Jr., and H. R. Preston, of Baltimore; W. C. Clayton, William McDonald and William B. Lauck, of Keyser. The matter of building the cut-off was thoroughly discussed and it was decided to begin work on both ends at once. Work on the only tunnel, which is 4,600 feet long, will be given especial attention. This cut-off will be five and one-half miles long, yet it will reduce the distance of the main line of the Baltimore & Ohio in West Virginia ten and one-half miles. Its completion will be pushed with all possible speed, so as to give relief to the crowded condition of the Cumberland yards.

POSTOFFICES ESTABLISHED.

And Pensions Granted—New Mail Route Recommended by Senator N. B. Scott.

WASHINGTON, D. C., April 8.—Post-offices have been established in West Virginia as follows: Corcoran, Austin L. Canfield, postmaster; Bull Run, Preston county, Jacob S. Radabaugh, postmaster; Doak, Doddridge county, Clinton Doak, postmaster; and Rosina, Kanawha county, Charles C. Ort, postmaster.

John W. Tucker has been commissioned postmaster at Lydia, West Virginia, and Charles L. Phipps, Sunnyside, West Virginia.

Senator Scott has recommended to the postoffice department the establishment of a mail route from Edray, West Virginia, to a point one and one-half miles west on Stoney Creek, thence to a point four miles west on Laurel creek.

The senator has also secured an increase in the frequency of the service on route 16,351, Wanless to Driftwood, West Virginia, from two to three times a week. This service will commence April 12, 1900.

Hon. T. R. Carakadon, of Keyser, W. Va., has been in the city for several days. Mr. Carakadon is here in the interest of an invention relating to vehicle bodies which he has patented, and desires to exhibit at the Paris exposition.

Pensions have been issued to West Virginia applicants, as follows: Original—Francis M. White, Logan, \$6; Amos Lismore, deceased, Lismore, \$8; Arthur McCord, Ravenswood, \$6; William Tucker, Barboursville, \$6.

Increase—Rufus A. Carder, Big Isaac, \$8 to \$12; John T. Logsdon, Knoxville, \$12 to \$17; John S. Beltenstein, Ogden, \$6 to \$8; John Hamilton, Cottageville, \$6 to \$8.

Reissue—Jackson, Tyner, \$6. Widows—Nancy Lismore, Lismore, \$8; Amanda E. Hyatt, Morgansville, \$12.

The pension of William Clark, Martin's Ferry, Ohio, has been increased from \$10 to \$12.

Changes in star schedule service in West Virginia have been ordered, as follows:

Goodhope to Lost Creek, route 16,372, leave Goodhope daily, except Sunday, at 8:15 a. m., and leave Lost Creek, returning, after arrival of mail train, but not later than 12:30 p. m.; Logan to Dungs, route 16,338, leave Logan, daily, except Sunday, at 6 a. m., and leave Dungs, returning, daily except Sunday at 2 p. m.; Piercy to Silvertown, route 16,579, after April 9, increase to six times a week, (daily, except Sunday), hours as at present; Hodges to Huntington, route 16,588, from April 9, increase service to six times a week, daily except Sunday, hours as at present; Byrside to Hurricane, route 16,572, April 9, increase service to six times a week, schedule to be daily except Sunday.

FOR WHITE AND HALL.

Tyler County in Line for the Two Republican Candidates.

Special Dispatch to the Intelligencer. SISTERSVILLE, W. Va., April 8.—Tyler county is beginning to get enthusiastic over the nomination of Hon. A. B. White for governor and his supporters are right in thinking that a man who has made the record he has as collector, is the man we want at the head of the Mountain State.

We hope James K. Hall will be successful in getting the nomination for state auditor, and if he does secure the office, Wheeling and Ohio county will lose one of the best workers it has ever had. A more thorough and gentlemanly politician was never in the fight for political honors, and we bespeak for the Hon. James K. Hall a victory next fall to be ever proud of.

KNIGHTS TEMPLAR

To Meet at Fairmont, May 9.—Center of the Coal and Coke Business.

FAIRMONT, W. Va., April 8.—Extensive preparations are being made to entertain the Grand Commandery, Knights Templar of West Virginia, which will meet here on May 9.

Fairmont is now the chief center of the coal and coke business in this region. The region includes all the mines between here and Morgantown, all mines near Fairmont, and all mines on the Monongahela River railroad as far south and including Pinnickianick.

A local company will drill for oil at Pritchard's Mills, this county. The territory is strictly wild cat, being clear out of the present development.

It is said the construction of the Patterson's Creek and Potomac railroad, the new cut off for the Baltimore & Ohio, will be begun at once. A company has been organized, and officers and directors elected. The principal office will be at Keyser. The fact that the road is to be built has had a tendency to boom real estate there, and a sharp advance in prices has already taken place.

The route has been surveyed for the railroad which the United States Lumber Company contemplates constructing from Keyser to Petersburg, Grant county. The distance is forty-five miles.

The Baltimore & Ohio engineers are re-surveying the Belington branch, for

the purpose of reducing the present grades and curves.

Stanhop Scott, of Terra Alta, has been made sergeant-major on the staff of Col. Clarence T. Smith, of this place.

The Isora Coal and Coke Company, which operates near Kingwood, has purchased large interests near Tyrconnel, Taylor county.

Robert G. Calther sold ten acres of his farm, near Flemington, Taylor county, to the Flemington Coal and Coke Company, for \$200 an acre. This is the highest price ever paid for farming land in that county.

The receipts for the Grafton post-office for the year just ended show the largest increase ever before made in a single year, the total receipts being \$3,000.

THE ROUND TABLE

Closed Its Meeting at Moundsville on Saturday Evening—The Sessions Interesting and Instructive.

The second day of the Ohio Valley Round Table meeting at Moundsville, opened at 9 o'clock Saturday morning, with Superintendent Githens, of Wellsburg, in the chair. The subject of "How to Treat Tardiness," was opened by Superintendent H. M. Merz, of Steubenville. He stated that he did not punish for tardiness, i. e., did not use severe measures. Principal Crago, of Wheeling, stated that the parent is communicated with, and generally with success. Superintendent Williams, of Marietta, thought there was too much ado made over tardiness. Superintendent Henderson, of New Cumberland, has tardy pupils sent to the office and the matter is investigated.

The subject, "Lecture Course for Ohio Valley Cities in University Extension Work, and Its Feasibility," was opened by Dr. Chamberlain. While much good may result from lectures he favored no "patent" way for getting an education. There is a great deal of humbuggery in education, as well as in other things. Superintendent Merz asked the question, What is being done as regards the reading circle on the Ohio side of the river? Superintendent Williams, of Marietta, said they were following the course in his school, but that he thought the course was a little heavy, i. e., too many subjects were incorporated in it. President Super said that several years ago lectures of the university extension course were given in Athens, and several surrounding towns, but that they were discontinued. The average American dislikes anything that looks like examination. They would rather be entertained than instructed. There are but few that will pursue a course of study by lectures. Superintendent Henderson said that they tried the extension course in New Cumberland with success, and it was very popular. The effect on the pupils of the high school was very good. Principal Work, of the Wheeling high school, asked if any one could tell of classes formed for this work and the results. Superintendent Merz said that one had been formed in Steubenville, with good results for one year; the second year the class was smaller, and it died a natural death. Some one stated that three-fourths of the teachers of the state of Ohio belonged to reading circles.

"How May Outside Attractions be Overcome and Pupils be Retained in School?" was opened by Superintendent Williams, of Moundsville. He stated that these things do exist in Moundsville, but how to overcome them he does not know. Williams, of Marietta, spoke of the complaints made by parents that their children especially the girls are being overworked in schools. Nine cases in ten it is the social life that is doing the breaking down. The parents' and teachers' social union is bringing about a better understanding of the work done by the pupils.

"What Should Be Done With the Large Boy in the Lower Grades?" was opened by Superintendent Merz. He stated that he gives them special attention, doing all in his power to assist them to hurry on to higher grades. This subject created more interest than any other subject. Some favored a room in which these pupils under a special teacher could be prepared for the grade to which they would naturally belong as to age, etc.

The subject of arithmetic was discussed by quite a number of teachers present.

At 11:30 a. m. the Round Table adjourned to meet in Martin's Ferry in October. The change of name was certainly a wise move, as it cost too much to put the former name in type. The Ohio Valley Teachers' Round Table is the name by which the association will hereafter be known. The Moundsville meeting was voted a success by all present.

Miss Ringell, principal of Ritchie school, Wheeling; Shaw, of West Liberty normal school; J. C. Postlewaite, superintendent of the New Martinsville schools; Principal Work, of the Wheeling high school, and Prof. Hulebs, principal of the Cameron schools, were present Saturday morning.

Quite a number of visitors were present, among whom were Messrs. McCoy, De Weese and Spicer, of the American Book Company.

Rheumatism Cured in a Day. "Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by R. H. List, 1100 Main street, Chas. Menckmeyer, corner Market and Twenty-second streets, druggists. mw&f

Nemo City, Alaska. Is twenty-four hundred and fifteen miles from Seattle. (Ocean, thirty-three hundred and sixteen miles overland.) It is said to be the richest gold field discovered up to this time. The first steamer will leave Seattle on or about May 10, 1900. For full particulars, maps, etc., address George H. Hendford, General Passenger Agent, Chicago, Milwaukee & St. Paul Railway, Chicago, Ill.

If Baby is Cutting Teeth Be sure and use that old and well-tried remedy. Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gum, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle. mw&f

BEECHAM'S PILLS for Stomach and Liver Ills.

THE BETHEL MISSION.

Will Move to New Quarters on Sixteenth Street—It is a Work of Practical Charity That Deserves Well.

In its humble sphere, the Bethel mission has done considerable good in Wheeling. This institution is located on Twentieth street, and besides offering shelter to unfortunate men, also aims to promote their spiritual welfare. It may not be perfect, but the encouragement it has received from business men shows that it fills a long felt want. For a nominal charge, meals and lodging are offered to the financially embarrassed and gospel meetings are conducted at the mission almost nightly.

By reason of the sale of the Twentieth street property to Spears & Riddie, the machine firm, the mission will be forced to vacate its location on May 1, and Rev. B. C. Bartlebaugh, the guiding spirit, has secured new quarters at 34 and 36 Sixteenth street, opposite the postoffice, and he has decided on changing the name from the Bethel mission to the Workingman's Home and Shelter.

The new place will have one part devoted to boarding workmen, lodging also being furnished, and the price will be fifty cents per day; the other part will be chiefly for the itinerant or unemployed, and they will be given a bed for five cents, a reduction from the rates at the old mission, and they will be furnished lunch from five cents upward. The new quarters are not large enough to possess a room for meetings, and the latter feature will be conducted in another part of the city at a location to be selected later. The employment bureau, which has been a most successful feature, will be continued, and the gospel wagon will be put into service for Sunday meetings on the streets in a few weeks.

The Bethel mission was founded about three years ago by Rev. B. C. Bartlebaugh, who has spent seven years of mission work in this city, and is consequently familiar with the character and scope of the work in Wheeling. In all he has been engaged twenty-two years in this line of work. In other cities similar ventures are permanent and there is no reason why it should not become so in Wheeling.

An idea of the work of the Bethel mission may be gained by Rev. B. C. Bartlebaugh's report for the first quarter of the present year, ending March 31. It shows a total of 1,682 meals furnished, of which 508 were charity cases; and 1,443 lodgers, of whom 325 were without money and without price.

VERDICT OF GUILTY

In the Cramblett Murder Case Comes As a Surprise.

SPECIAL DISPATCH TO THE INTELLIGENCER. STEUBENVILLE, O., April 8.—Twenty-four hours has made no change in the feeling that Cramblett guilty or not was not proven guilty beyond a doubt, and the surprise is yet as great as the verdict of guilty. Nothing else is discussed here and from telephone messages the same feeling for the prisoner exists in other parts of the county. The prisoner maintained a stolid look when the verdict was announced, the feminine part of the audience giving vent to suppressed surprise. They were a unit in expecting an acquittal.

Select Delegates. SPECIAL DISPATCH TO THE INTELLIGENCER. STEUBENVILLE, O., April 8.—The Harrison county Republican executive committee yesterday selected delegates to the coming circuit judge convention and instructed them to support Hon. John M. Cook, of Steubenville, for the office.

LOCAL ENTHUSIASM.

On One Subject Wheeling People Grow Enthusiastic.

The increase of popular enthusiasm on the following subject is almost daily manifested by public expression and local endorsement. Read what this citizen says and discover the cause of the constant showering of praise which follows in the wake of Doan's Kidney Pills. Mrs. Edward Kurtz, of No. 2220 Main street, says:

"I was so crippled at the time I got Doan's Kidney Pills at the Logan Drug Company's, that I could scarcely get around, and they took all the aches and pains away. I tried many things at different times. Some one recommended juniper berries and I took tea made from them for a whole month, but it did me no good. Doan's Kidney Pills were a great friend to me, and I can honestly recommend them to others, knowing that they will do everything that is claimed for them."

For sale by all dealers. Price 50 cents. Foster-Milburn Company, Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

BAGGAGEMAN ARRESTED

Charged with Having Riffed Baggage in Transit—Is in Jail.

TOLEDO, O., April 8.—Fred Burmeister, aged fifty years, of Buffalo, baggageman on a Lake Shore train running between here and Buffalo, was arrested on the arrival of his train from the east this morning, charged with having riffed baggage in transit. The complaint is made by John L. Freeman, general baggage agent of the Lake Shore, who says that Burmeister's depredations have been going on for the past two years. The detectives and Freeman say that Burmeister has admitted his guilt. In a satchel found with the accused were goods said to be valued at \$3,000, and which, it is alleged, were taken by him from trunks in transit. Burmeister was placed in jail here. He will probably be taken to Buffalo for trial.

No Right to Ugliness.

The woman who is lovely in face, form and temper, will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a sallow complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at Logan Drug Co's Drug Store.

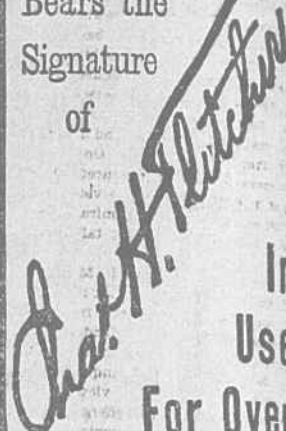

HALF of the ill that man is heir to come from indigestion. Burdock Blood Bitters strengthens and tones the stomach; makes indigestion impossible.—1

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of

In Use For Over Thirty Years

CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.
